Computational Intelligence Techniques for Trading and Investment (Routledge Advances in Experimental and Computable Economics)

Computational Intelligence Techniques for Trading and Investment (Routledge Advances in Experimental and Computable Economics)

Computational intelligence, a sub-branch of artificial intelligence, is a field which draws on the natural world and adaptive mechanisms in order to study behaviour in changing complex environments. This book provides an interdisciplinary view of current technological advances and challenges concerning the application of computational intelligence techniques to financial time-series forecasting, trading and investment.

The book is divided into five parts. The first part introduces the most important computational intelligence and financial trading concepts, while also presenting the most important methodologies from these different domains. The second part is devoted to the application of traditional computational intelligence techniques to the fields of financial forecasting and trading, and the third part explores the applications of artificial neural networks in these domains. The fourth part delves into novel evolutionary-based hybrid methodologies for trading and portfolio management, while the fifth part presents the applications of advanced computational intelligence modelling techniques in financial forecasting and trading.

This volume will be useful for graduate and postgraduate students of finance, computational finance, financial engineering and computer science. Practitioners, traders and financial analysts will also benefit from this book.

From reader reviews:

Danny Johnson:

What do you regarding book? It is not important together with you? Or just adding material when you want something to explain what the ones you have problem? How about your free time? Or are you busy particular person? If you don't have spare time to complete others business, it is gives you the sense of being bored faster. And you have time? What did you do? Every individual has many questions above. The doctor has to answer that question simply because just their can do that. It said that about book. Book is familiar in each person. Yes, it is correct. Because start from on guardería until university need this specific Computational Intelligence Techniques for Trading and Investment (Routledge Advances in Experimental and Computable Economics) to read.

Martin Solomon:

Spent a free time to be fun activity to perform! A lot of people spent their free time with their family, or their very own friends. Usually they performing activity like watching television, gonna beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? Might be reading a book might be option to fill your free of charge time/ holiday. The first thing that you'll ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the book untitled Computational Intelligence Techniques for Trading and Investment (Routledge Advances in Experimental and Computable Economics) can be excellent book to read. May be it may be best activity to you.

Tammy Jones:

Do you like reading a e-book? Confuse to looking for your chosen book? Or your book seemed to be rare? Why so many question for the book? But any people feel that they enjoy intended for reading. Some people likes looking at, not only science book but in addition novel and Computational Intelligence Techniques for Trading and Investment (Routledge Advances in Experimental and Computable Economics) as well as others sources were given knowledge for you. After you know how the truly great a book, you feel need to read more and more. Science e-book was created for teacher or even students especially. Those publications are helping them to bring their knowledge. In additional case, beside science publication, any other book likes Computational Intelligence Techniques for Trading and Investment (Routledge Advances in Experimental and Computable Economics) to make your spare time considerably more colorful. Many types of book like here.

Alexandra Stafford:

Some individuals said that they feel bored stiff when they reading a e-book. They are directly felt it when they get a half parts of the book. You can choose the particular book Computational Intelligence Techniques for Trading and Investment (Routledge Advances in Experimental and Computable Economics) to make

your own personal reading is interesting. Your own skill of reading proficiency is developing when you similar to reading. Try to choose simple book to make you enjoy to learn it and mingle the opinion about book and reading especially. It is to be first opinion for you to like to open up a book and learn it. Beside that the publication Computational Intelligence Techniques for Trading and Investment (Routledge Advances in Experimental and Computable Economics) can to be your new friend when you're feel alone and confuse with what must you're doing of this time.
