The book attempts to provide answers to the question: Why have Eurasian people been the dominant wealth and power in the world? That is, why didn't other cultures gain dominance before 1,500 CE? After all, until the end of the most recent Ice Age, circa 11,000 BCE, all humans were hunter-gatherers. So, what accounts for the different rates of development of societies between 11,000 BCE and 1500 CE? Those questions are the subject of the book.
