Award winning essayist Scott Russell Sanders once compared the art of essay writing to "the pursuit of mental rabbits"—a rambling through thickets of thought in search of some brief glimmer of fuzzy truth. While some people persist in the belief that essays are stuffy and antiquated, the truth is that the personal essay is an ever-changing creative medium that provides an ideal vehicle for satisfying the human urge to document truths as we experience them and share them with others—to capture a bit of life on paper.
