## Cather Studies, Volume 10: Willa Cather and the Nineteenth Century Cather Studies

*Willa Cather and the Nineteenth Century* explores, with textual specificity and historical alertness, the question of how the cultures of the nineteenth century—the cultures that shaped Willa Cather's childhood, animated her education, supplied her artistic models, generated her inordinate ambitions, and gave embodiment to many of her deeply held values—are addressed in her fiction.

In two related sets of essays, seven contributors track within Cather's life or writing the particular cultural formations, emotions, and conflicts of value she absorbed from the atmosphere of her distinct historical moment; their ten colleagues offer a compelling set of case studies that articulate the manifold ways that Cather learned from, built upon, or resisted models provided by particular nineteenth-century writers, works, or artistic genres. Taken together with its Cather Studies predecessor, *Willa Cather and Modern Cultures*, this volume reveals Cather as explorer and interpreter, sufferer and master of the transition from a Victorian to a Modernist America.
