Internet information resources used by parents of pediatric patients Christian Sebelefsky

Diploma Thesis from the year 2014 in the subject Medicine - Pediatrics, grade: 1,0, , language: English, comment: The original questionnaire in German language used for data collection can be found in the appendix of this thesis. It is also available in a translated English version and an optimized English version., abstract: The investigation providing the basis for this thesis examined the internet health seeking behavior of parents attending a general pediatric out-patient clinic with their child. It provides data on internet use of parents and the online resources used for child health information purposes. Additional variables relate to specific characteristics of parents and children, their social demographics, and the child's medical condition. The study was performed at the First Vienna Pediatric Medical Center (FVPMC), Vienna, Austria, by means of a questionnaire containing 40 items.
