Tired of the typical boring guides? This guide tries to do the same as the “ask a local”, but it is (maybe!) better organized and more complete. In all our guides, we hire a “local” writer, and then we edit to be sure that the guide is complete, unique, fun and interesting. Typically we won’t add too many maps or photos (just a few), since you can have all that on the internet, and we like to give you only unique and original content that you won’t find easily.

Here is a brief description of the guide:

If London is calling, then this is the right guide for you, mate! I, Sir Local, have carefully put together this absolutely comprehensive guide about this fervent metropolis. We start off by brushing up on the magnificent history of London and how it became what it is today. You can’t talk about the history of London without dedicating a whole chapter on our royalty, so meet the royals in chapter 3 and discover their heritage on the city. To get around London, you will need to understand its layout and then how to use its means of transportation, of which there is no shortage. Chapter 4 will come in handy for that. Next, we cover the most iconic landmarks of London in chapter 5: “What to see in London”. This city has the biggest amount of museums in the world, so learn which ones not to miss in chapter 6.

No visit to London is complete without indulging in some of our delicious ales and lagers. Chapter 7 is a guide to the best pubs in London. On its way to become a foodie’s paradise, London is much more than just fish and chips as you will learn in Chapter 8.

I think the lyrics “We built this city on rock’n’roll” apply to London more than any other city in the world. Today you can visit the immense musical heritage it is left in the city, but also immerse yourself in the modern music scene. Learn about it in Chapter 9: Music scene of London.

Because London is such a diverse city, the next three chapters cover three different lifestyles you can have in London: the highlife, backpacker style and local style. Chapter 13 is here to give you a rough estimate of how much money you will be spending in the most expensive city in the world. Next, we keep you safe by giving you a couple of pointers about the possible dangers you will encounter in this huge city. London is a global city in terms of economy, finances and every other industry. Chapter 15 tells you everything about that.

London is the capital of worldwide fashion and Chapter 16 covers the fashion scene, while chapter 17 tells you which are best places in London to go shopping. London is also synonymous with arts and culture, and you can’t leave this city without catching a play on the West End. Find out what’s playing in Chapter 18. London is also increasingly becoming a prolific setting for film and television and so many of your favorite

movies have shot here. In chapter 19 see what famous movie locations you can visit in London and in chapter 20 read about the hottest spots in town where you're likely to spot a celebrity. And as our good friend Joey would say... "This is London, baby!"
