Pharmacology for Nursing Care - Elsevier E-Book on Intel Education Study (Retail Access Card), 8e
Richard A. Lehne PhD

A favorite among nursing students, **Pharmacology for Nursing Care, 8th Edition**, features a uniquely engaging writing style, clear explanations, and unmatched clinical precision and currency to help you gain a solid understanding of key drugs and their implications -- as opposed to just memorization of certain facts. Compelling features such as a drug prototype approach, use of large and small print to distinguish need-to-know versus nice-to-know content, and a focus on major nursing implications save you study time by directing your attention on the most important, need-to-know information. The new edition also features an abundance of content updates to keep you ahead of the curve in school and in professional practice.

- **UNIQUE! Engaging writing style** with clear explanations makes content easy to grasp and even enjoyable to learn.
- **A drug prototype approach** uses one drug within each drug family to characterize all members of its group to help you learn about related drugs currently on the market and drugs that will be released once you begin practice.
- **UNIQUE! Special Interest Topic boxes** address timely issues in pharmacology and connect pharmacology content with current trends.
- **Large print/small print design** distinguishes essential "need-to-know" information from "nice-to-know" information.
- **Limited discussion of adverse effects and drug interactions** keeps your limited study time focused on only the most clinically important information.
- **Reliance on up-to-date evidence-based clinical guidelines** ensures that therapeutic uses are clinically relevant.
- **Integrated and summarized nursing content** demonstrates the vital interplay between drug therapy and nursing care.
- **Coverage of dietary supplements and herbal interactions** equips you to alert patients and caregivers to the potential dangers of certain dietary supplements, including interactions with prescribed and over-the-counter drugs and herbal therapies.
- **Additional learning features** provide a touchstone for study and review as you complete reading assignments and build a foundation of pharmacologic knowledge.
- **Updated drug content and related nursing content** reflect the very latest FDA drug approvals, withdrawals, and evidence-based therapeutic uses.
- **Expanded and updated content on medication safety** prepares you to pass the NCLEX Examination and practice safe medication administration in the clinical setting.
- **Expanded coverage of pharmacogenomics** introduces you to the many different genetic factors that influence drug therapy.
- **New information on electronic prescribing** primes you for nursing practice in the 21st century, as electronic prescribing systems become more common in the clinical setting.
- **Updated coverage of evidence-based clinical treatment guidelines**, particularly those for cholesterol and diabetes management, promotes evidence-based practice in nursing pharmacology.
- **New chapter (Chapter 39) on nicotine and tobacco** abuse highlights our growing understanding of the

unique addictive properties of nicotine and the nursing considerations for helping patients improve their health through smoking cessation.

- **Canadian drug names** are now included and highlighted with a maple leaf icon to familiarize U.S readers with other trade names they may see and to make the book more useful for Canadian students.

I. INTRODUCTION

1. Orientation to Pharmacology
2. Application of Pharmacology in Nursing Practice
3. Drug Regulation, Development, Names, and Information

II. BASIC PRINCIPLES OF PHARMACOLOGY

4. Pharmacokinetics
5. Pharmacodynamics
6. Drug Interactions
7. Adverse Drug Reactions and Medication Errors
8. Individual Variation in Drug Responses

III. DRUG THERAPY ACROSS THE LIFESPAN

9. Drug Therapy During Pregnancy and Breast-Feeding
10. Drug Therapy in Pediatric Patients
11. Drug Therapy in Geriatric Patients

IV. PERIPHERAL NERVOUS SYSTEM DRUGS

12. Basic Principles of Neuropharmacology
13. Physiology of the Peripheral Nervous System
14. Muscarinic Agonists and Antagonists
15. Cholinesterase Inhibitors and Their Use in Myasthenia Gravis
16. Drugs That Block Nicotinic Cholinergic Transmission: Neuromuscular Blocking Agents and Ganglionic Blocking Agents
17. Adrenergic Agonists
18. Adrenergic Antagonists
19. Indirect-Acting Antiadrenergic Agents

V. CENTRAL NERVOUS SYSTEM DRUGS

20. Introduction to Central Nervous System Pharmacology
21. Drugs for Parkinson's Disease
22. Alzheimer's Disease
23. Drugs for Multiple Sclerosis
24. Drugs for Epilepsy
25. Drugs for Muscle Spasm and Spasticity
26. Local Anesthetics
27. General Anesthetics
28. Opioid (Narcotic) Analgesics, Opioid Antagonists, and Nonopioid Centrally Acting Analgesics
29. Pain Management in Patients with Cancer
30. Drugs for Headache
31. Antipsychotic Agents and Their Use in Schizophrenia
32. Antidepressants
33. Drugs for Bipolar Disorder
34. Sedative-Hypnotic Drugs
35. Management of Anxiety Disorders
36. Central Nervous System Stimulants and Attention-Deficit/Hyperactivity Disorder
37. Drug Abuse I: Basic Considerations
38. Drug Abuse II: Alcohol
39. Drug Abuse III: Nicotine and Smoking NEW!
40. Drug Abuse IV: Major Drugs of Abuse Other Than Alcohol and Nicotine
- VI: DRUGS THAT AFFECT FLUID AND ELECTROLYTE BALANCE
41. Diuretics
42. Agents Affecting the Volume and Ion Content of Body Fluids
- VII: DRUGS THAT AFFECT THE HEART, BLOOD VESSELS, AND BLOOD
43. Review of Hemodynamics
44. Drugs Acting on the Renin-Angiotensin-Aldosterone System

45. Calcium Channel Blockers
46. Vasodilators
47. Drugs for Hypertension
48. Drugs for Heart Failure
49. Antidysrhythmic Drugs
50. Prophylaxis of Coronary Heart Disease: Drugs That Help Normalize Cholesterol and Triglyceride Levels
51. Drugs for Angina Pectoris
52. Anticoagulant, Antiplatelet, and Thrombolytic Drugs
53. Management of ST-Elevation Myocardial Infarction
54. Drugs for Hemophilia
55. Drugs for Deficiency Anemias
56. Hematopoietic Agents

VIII. DRUGS FOR ENDOCRINE DISORDERS

57. Drugs for Diabetes Mellitus
58. Drugs for Thyroid Disorders
59. Drugs Related to Hypothalamic and Pituitary Function
60. Drugs for Disorders of the Adrenal Cortex

IX. WOMEN'S HEALTH

61. Estrogens and Progestins: Basic Pharmacology and Noncontraceptive Applications
62. Birth Control
63. Drug Therapy of Infertility
64. Drugs That Affect Uterine Function

X. MEN'S HEALTH

65. Androgens
66. Drugs for Erectile Dysfunction and Benign Prostatic Hyperplasia

XI. ANTI-INFLAMMATORY, ANTIALLERGIC, AND IMMUNOLOGIC DRUGS

67. Review of the Immune System

68. Childhood Immunization

69. Immunosuppressants

70. Antihistamines

71. Cyclooxygenase Inhibitors: Nonsteroidal Anti-inflammatory Drugs and Acetaminophen

72. Glucocorticoids in Nonendocrine Disorders

XII. DRUGS FOR BONE AND JOINT DISORDERS

73. Drug Therapy of Rheumatoid Arthritis

74. Drug Therapy of Gout

75. Drugs Affecting Calcium Levels and Bone Mineralization

XIII. RESPIRATORY TRACT DRUGS

76. Drugs for Asthma

77. Drugs for Allergic Rhinitis, Cough, and Colds

XIV. GASTROINTESTINAL DRUGS

78. Drugs for Peptic Ulcer Disease

79. Laxatives

80. Other Gastrointestinal Drugs

XV. NUTRITION

81. Vitamins

82. Drugs for Weight Loss

XVI. CHEMOTHERAPY OF INFECTIOUS DISEASES

83. Basic Principles of Antimicrobial Therapy

84. Drugs That Weaken the Bacterial Cell Wall I: Penicillins

85. Drugs That Weaken the Bacterial Cell Wall II: Cephalosporins, Carbapenems, Vancomycin, Telavancin, Aztreonam, Teicoplanin, and Fosfomycin

86. Bacteriostatic Inhibitors of Protein Synthesis: Tetracyclines, Macrolides, and Others

87. Aminoglycosides: Bactericidal Inhibitors of Protein Synthesis

88. Sulfonamides and Trimethoprim

89. Drugs Therapy of Urinary Tract Infections

90. Antimycobacterial Agents: Drugs for Tuberculosis, Leprosy, and *Mycobacterium avium* Complex Infection

91. Miscellaneous Antibacterial Drugs: Fluoroquinolones, Metronidazole, Daptomycin, Rifampin, Rifaximin, Bacitracin, and Polymyxins

92. Antifungal Agents

93. Antiviral Agents I: Drugs for Non-HIV Viral Infections

94. Antiviral Agents II: Drugs for HIV Infection and Related Opportunistic Infections

95. Drug Therapy of Sexually Transmitted Diseases

96. Antiseptics and Disinfectants

XVII. CHEMOTHERAPY OF PARASITIC DISEASES

97. Anthelmintics

98. Antiprotozoal Drugs I: Antimalarial Agents

99. Antiprotozoal Drugs II: Miscellaneous Agents

100. Ectoparasiticides

XVIII. CANCER CHEMOTHERAPY

101. Basic Principles of Cancer Chemotherapy

102. Anticancer Drugs I: Cytotoxic Agents

103. Anticancer Drugs II: Hormonal Agents, Targeted Drugs, and Other Noncytotoxic Anticancer Drugs

XIX. ADDITIONAL IMPORTANT DRUGS

104. Drugs for the Eye

105. Drugs for the Skin

106. Drugs for the Ear

107. Miscellaneous Noteworthy Drugs

XX. ALTERNATIVE THERAPY

108. Dietary Supplements

XXI. TOXICOLOGY

109. Management of Poisoning

110. Potential Weapons of Biologic, Radiologic, and Chemical Terrorism

From reader reviews:

James Shafer:

What do you with regards to book? It is not important to you? Or just adding material if you want something to explain what you problem? How about your spare time? Or are you busy man or woman? If you don't have spare time to try and do others business, it is make you feel bored faster. And you have time? What did you do? All people has many questions above. They must answer that question simply because just their can do that will. It said that about publication. Book is familiar on every person. Yes, it is proper. Because start from on guardería until university need that Pharmacology for Nursing Care - Elsevier E-Book on Intel Education Study (Retail Access Card), 8e to read.

Viola Coghlan:

The event that you get from Pharmacology for Nursing Care - Elsevier E-Book on Intel Education Study (Retail Access Card), 8e will be the more deep you rooting the information that hide inside the words the more you get considering reading it. It does not mean that this book is hard to recognise but Pharmacology for Nursing Care - Elsevier E-Book on Intel Education Study (Retail Access Card), 8e giving you buzz feeling of reading. The article author conveys their point in selected way that can be understood by anyone who read this because the author of this e-book is well-known enough. This particular book also makes your personal vocabulary increase well. Making it easy to understand then can go to you, both in printed or e-book style are available. We highly recommend you for having this Pharmacology for Nursing Care - Elsevier E-Book on Intel Education Study (Retail Access Card), 8e instantly.

Candice Sharkey:

A lot of people always spent all their free time to vacation as well as go to the outside with them friends and family or their friend. Do you realize? Many a lot of people spent they will free time just watching TV, or perhaps playing video games all day long. If you would like try to find a new activity that's look different you can read a book. It is really fun for you. If you enjoy the book which you read you can spent all day long to reading a e-book. The book Pharmacology for Nursing Care - Elsevier E-Book on Intel Education Study (Retail Access Card), 8e it is rather good to read. There are a lot of those who recommended this book. These were enjoying reading this book. When you did not have enough space to deliver this book you can buy the particular e-book. You can m0ore easily to read this book from the smart phone. The price is not to fund but this book possesses high quality.

John Hayes:

Reading a book being new life style in this 12 months; every people loves to examine a book. When you study a book you can get a great deal of benefit. When you read textbooks, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what forms of book that you have read. If you wish to get information about your research, you can read education

books, but if you act like you want to entertain yourself read a fiction books, these kinds of us novel, comics, as well as soon. The Pharmacology for Nursing Care - Elsevier E-Book on Intel Education Study (Retail Access Card), 8e will give you a new experience in examining a book.
