Strategy: Second Revised Edition (Meridian) B. H. Liddell Hart

"The most important book by one of the outstanding military authorities of our time." – Library Journal

This is the classic book on war as we know it. During his long life, Basil H. Liddell Hart was considered one of the world's foremost military thinkers--a man generally regarded as the "Clausewitz of the 20th century." *Strategy* is a seminal work of military history and theory, a perfect companion to Sun-tzu's *The Art of War* and Carl von Clausewitz's *On War*.

Liddell Hart stressed movement, flexibility, and surprise. He saw that in most military campaigns dislocation of the enemy's psychological and physical balance is prelude to victory. This dislocation results from a strategic indirect approach. Reflect for a moment on the results of direct confrontation (trench war in WW I) versus indirect dislocation (Blitzkrieg in WW II). Liddell Hart is also tonic for business and political planning: just change the vocabulary and his concepts fit.
