Deleuze and Religion

Mary Bryden

Deleuze and Religion Mary Bryden

Despite the ever-expanding body of Deleuzian scholarship, single volume has explored the religious dimensions of Deleuze's writing. Now, Mary Bryden has assembled a team of international scholars to do just that. Their essays illustrate the ways in which Deleuzian thought is antithetical to religious debate, as well as the ways in which it contributes to those debates.

This volume will be invaluable for researchers, teachers and students of theology, philosophy, critical theory, cultural studies and literary criticism as well as to students of French who read Deleuze's work in its original language.
