The Insights series helps students develop effective, flexible reading strategies. They learn to adjust reading for different purposes and different types of text. The units provide activities that allow integration across the language arts and the entire curriculum. The goal of this book is to enhance not only reading fluency, but motivation. Critical thinking allows students to appreciate great literature. Lists of suggested readings and activities are provided for parents so that students are encouraged to read outside of school and use the strategies whenever they read. Alternate lessons present information and structure responses using a variety of modalities. Recommended levels for mastery in each unit assessment help teachers to provide appropriate remedial guidance or extension of activities.
