Monday Night Class Stephen Gaskin

Monday Night Class began as an experimental college course that evolved into a popular weekly venue attended by over 1500 people. Hippies in the Bay Area swarmed to talk about what was on their mind with one of the few adults they trusted, "hippie guru" Stephen Gaskin.

Consciousness, the spiritual plane, religion, politics, sex, drugs, and current events were discussed as seen through the viewpoint of the 60s counterculture. What materialized were basic teachings that gave rise to an enlightened worldview for a generation seeking change.

This new edition is a collection of the original transcripts from those unique and inspiring meetings updated with Stephen's witticisms, quips, and running commentary. With over 35 years of perspective, Stephen clarifies earlier responses for today's global climate and acknowledges those teachings that were admittedly a product of the times.
