The Intelligent Woman's Guide to Socialism and Capitalism (Social Science Classics Series) George Bernard Shaw

With great wit and forcefulness, Shaw here presents the conditions under which he thought the world could look forward to the future with hope. This book sets out most completely Shaw's indictment of capitalism as the source of both domestic injustice and international enmity, and his arguments for a socialist egalitarian society as the only society assured a healthy future. "The result of his clarity and his thoroughness is that...[h]e has made plain the entire complicated system of modern life." - Chicago Daily Tribune
