Readings in the Philosophy of Law John Arthur

Designed for a first course in philosophy of law, jurisprudence or legal theory, this revised text contains classical and contemporary readings on a range of key issues in legal theory. Topics range from the nature of law and legal reasoning to specific problems such as entrapment, search and seizure, exclusionary rules, plea bargaining, pre-trial publicity, lawyer's ethics, and the adversary system. Introductions are provided for each topic, and often the first essay provides students with an overview of the problems that follow.
